IDFC Focused Equity Fund is a concentrated portfolio of up to 30 stocks with the flexibility to invest across sectors and across market cap.

### FUND PHILOSOPHY\*

IDFC Focused Equity Fund is an equity oriented fund investing across the market cap curve. It holds a concentrated portfolio comprising of a mix of core and tactical ideas limited to a maximum of 30 stocks. The core portfolio of the fund primarily invests in businesses that are growth oriented and have superior quality characteristics. The tactical part of the portfolio largely comprises of businesses that have the potential to turnaround driven by change in internal/external environment.

Under the newly defined SEBI scheme classification, IDFC Focused Equity Fund is categorized under “Focused” Funds. At an industry level, while these funds are classified as “Focused”, their market cap orientation is not defined clearly and by this nature they are also “Multi-Cap”.

### OUTLOOK

Domestic markets have bounced in line with global markets, despite the rising cases in the country and the economic fallout of one of the most severe lockdowns. High-frequency data show a rebound in economic activity post lockdown. Essential services like groceries and pharmacies are now close to pre-lockdown levels. India’s manufacturing PMI has improved sharply from the lows of April.

Two wheelers, tractors, fertilizers, agrochemicals have reported the most robust growth rates and are tipped to reach pre-Covid levels fastest. Pharmaceuticals, has seen the sharpest pullback while Banking and NBFCs, continue to be impacted by Moratorium and higher provisioning fears, thus the “quality” of earnings till Q3 FY21 will remain suspect.

Going ahead, post the pandemic, economic growth will be uneven and difficult to forecast. The key would be to stay invested and participate in the recovery which will unfold in the future. We believe Large Cap stocks may offer greater stability, while small caps will have edge on the valuation front.

Face Value per Unit (in ₹) is 10  
Dividend is not guaranteed and past performance may or may not be sustained in future.  
Pursuant to payment of dividend, the NAV of the scheme would fall to the extent of payout and statutory levy (as applicable).
