

IDFC GOVERNMENT SECURITIES FUND-INVESTMENT PLAN

(Government Securities Fund PF will be merged into Government Securities Fund IP w.e.f. May 7, 2018)

An open ended debt scheme investing in government securities across maturities

A dedicated gilt fund with an objective to generate optimal returns with high liquidity by investing in Government Securities.

OUTLOOK

The 3 clear themes for the bond market continue:

- 1) Focus has to be on best quality AAA and sovereign / quasi sovereign. There is no macro logic whatsoever for pursuing high yield strategies. The inherent illiquidity in that segment has now been amplified while many balance sheets will possibly continue to see steady deterioration.
- 2) The best risk versus reward continues to be in the front end (upto 5 year) in our view.
- 3) While duration is attractive given the wider term spread and when compared to nominal growth rate expectations, sustained performance here is still dependent upon the unveiling of a credible financing plan from the RBI for the enhanced borrowing program of the sovereign.

Fund Features: (Data as on 30th June'20)

Category: Gilt

Monthly Avg AUM: ₹1,109.15 Crores

Inception Date: 9th March 2002
