Bajaj Finance	AAA	0.45%

\*The scheme is currently following a 'roll down' investment approach on a tactical basis. This means that ordinarily the average maturity of the scheme's portfolio is unlikely to increase significantly and may be expected to generally reduce with the passage of time, subject to intermittent periods of volatility in the maturity profile owing to AUM movement and market conditions. The approach being followed currently is tactical in nature and would be subject to change depending on investment opportunities available without prior notice.

Standard Deviation calculated on the basis of 1 year history of monthly data
