IDFC ASSET ALLOCATION FUND OF FUNDS

An open ended fund of fund scheme investing in schemes of IDFC Mutual Fund equity funds and debt funds excluding Gold ETF.

IDFC Asset Allocation Fund of Funds helps diversify your investment and provides participation across three asset classes - Debt, Equity and Gold. Equity allocation is towards a diversified portfolio that invests across market capitalizations. The Debt portfolio is predominantly short term funds. Allocation towards Gold is to hedge the portfolio against inflation.

The allocation to the respective asset classes are rebalanced as per a pre-conceptualized matrix on a regular basis into three plans- Conservative, Moderate and Aggressive. Within each asset class the objective of the fund is to optimize the return by actively allocating assets to funds which best reflects the underlying macroeconomic theme.
