## IDFC BOND FUND - Short Term Plan

An open ended short term debt scheme investing in instruments such that the Macaulay duration of the portfolio is between 1 year and 3 years. A Scheme with Moderate Interest Rate Risk and Relatively Low Credit Risk.

- A portfolio that emphasizes on high quality currently 100% AAA and equivalent instruments.
- A portfolio where the duration risk is limited as the average maturity is ordinarily anchored approximately around 2 years currently.
- By investing in one single fund you get to diversify your allocation across high quality instruments with relatively low credit risk.
- Ideal to form part of 'Core' Bucket due to its high quality and short duration profile.
