

IDFC FLEXI CAP FUND[^]

(previously known as IDFC Multi Cap Fund)

IDFC Flexi Cap Fund – An open ended equity scheme investing across large cap, mid cap, small cap stocks.

FUND PHILOSOPHY*

The fund will invest in equity and equity related instruments which is diversified across market capitalization viz. Large Cap companies, Mid Cap companies and Small Cap companies spread across sectors.

The Fund Manager will generally invest in a few selected sectors, which in the opinion of the fund manager have potential to grow.

OUTLOOK

“CY21 was a year of strong earnings growth, driven by cyclical earnings recovery. The earnings upgrades have been broad-based, though some narrowing has been seen in the last 2 quarters. CY22 sees the return of state elections. While elections by themselves may not trigger a market collapse, volatility could be more pronounced in CY22 as compared to earlier years. After the unintended consequence of inflation, as registered by metal and cement companies, more impact of inflation could be felt during CY22. While the last two decades have implanted China as the manufacturing hub for the world, the recent geopolitical tensions provide India with an opportunity to move from the side stage of global supply to an emerging and central player in the global supply chain for the future. CY2022 could be a year where the markets revisit a higher level of volatility, a feature missing through most of the period since April'20.”

The scheme has repositioned from IDFC Multi Cap Fund to IDFC Flexi Cap Fund with effect from February 9, 2021.

*Note: “IDFC Multi Cap Fund” has been re-categorized from the Multi Cap Fund Category to the Flexi Cap Fund category and has been renamed as “IDFC Flexi Cap Fund” with effect from February 09, 2021. Refer the addendum issued in this regard detailing the changes being carried out to the SID of the Scheme which is available on our website i.e. www.idfcmf.com
